the Board of County Commissioners had duly caused to be made an accurate survey of said road and therefore thereon an accurate profile and plans and specifications for the improvement, and estimates of the cost thereof which said survey, plans and specifications and estimates have been duly and legally approved by the State Highway Engineer and filed in the office of the County Clerk of Yandesw County, Kansas; and

WHEREAS, the estimate of the cost of said improvement shows the total approximate cost to be $35,891.08 and

WHEREAS, thereafter and on about 1st day of July, 1908, there was let to the Quinlan Bros., a contract for improving said Reedy Road in accordance with the plans and specifications, according to law at the contract price of $35,891.74; and

The Drainage Board at this meeting, will consider the advisability of ordering the raising of the bridge approximately five feet, so that the floor and the lowest part of the superstructure will be above the established levee grade. Such a change in the elevation of the bridge will necessitate the raising of the piers at each end of the bridge, for a distance of approximately two hundred feet. Any objection you have to the raising of the bridge and the change in the grade of the street will be considered.

You are respectfully notified and requested to be present at said meeting and to present to the Board of Directors of the Kaw Valley Drainage District, at said meeting, any statements, evidence, arguments or objections, oral or written, that you may desire to make or have considered by said Board, relative to said matters.

Honorable Board of County Commissioners,
Wyandotte County, Kansas.

Gentlemen:

As requested by you, we have received the following bids on trees for the embellishment of the grounds of the Wyandotte County Court House:

- Kansas City Nurseries, by Geo. H. Johnson Prop., $960.00
- Holinger Nursery, by E. S. Wilson, 985.50

Mr. Bicklemeyer submitted a bid for the Primrose Nursery, of $900.00 based on a list different from the two bids mentioned above, and has not bid according to the revised list as figured on by the above mentioned nurseries.

Holinger nurseries have the size trees required and called for and the greater number of specimens to select from. We visited the nursery where Mr. Bicklemeyer said his large cedars would be found and were informed that they had no such trees at this time.

You will notice in the Kansas City Nurseries bid that they have made a difference in the size of certain trees which, of course, reduces the cost, and this would make the Holinger bid considerably lower.

We therefore recommend that the bid of Holinger Nursery be accepted and we suggest that work be started at once.

Yours very truly,

Wright & Wright.

Board of Commissioners,
Wyandotte County,
Kansas City, Kansas.

Gentlemen:

In response to your conversation relative to employing me to defend the suit or the action on pending in the United States District Court of Kansas, entitled "The Kansas City Railways Company vs The Board of County Commissioners of Wyandotte County, Kansas," no. 109-M, I would say: It is extremely difficult, if not impossible, to fix a reasonable fee under the circumstances, and so I think that the following proposition would be fair:

I am to receive a retainer of $500.00 at once and the County to pay me, upon proper vouchers, the amounts I am obliged to disburse for traveling and other expenses incident to the defense of said case. At the termination of said case, I am to receive such an amount for my fee in the matter as may be decided informally and without any legal proceedings, by the Four Judges of the District Court of Wyandotte County, Kansas.

If this proposition is satisfactory, I will accept the employment, but would like to be informed in regard to the matter at the very earliest date possible.

Yours respectfully,

James F. Getty.

Board of Commissioners.

Gentlemen:

In the matter of bids submitted to me for the reconstruction of the Argentine Boulevard Bridge, I herewith report as follows:

All of the bids with the exception of the Kansas City Bridge Company are under the estimate and are therefore entitled to your consideration.

The bids are in the following order and amounts together with their proposed date of completion:

<table>
<thead>
<tr>
<th>Name of bidder</th>
<th>Amount</th>

</tr>
</thead>

From the above schedule you will see that nearly all the other bidders ask for a time period three months in excess of the second low bidder; viz: the K. C. Structural Steel Company; this also applies to the second low bidder— the Rand Construction Company. In this connection permit me to make this observation: The paramount reason for constructing this bridge under the Drainage Act was to save the delay necessary by submitting the proposition to the voters or the other alternative of waiting to place same under next years' bridge budget.

Then again this bridge is located on U. S. Highway 4935 and its rerouting has thrown an extra burden on the next Avenue Bridge, which you know being to the condition of the floor is already overtaxed. The condition should be remedied as soon as possible. Only the other day a representative of the Omaha Office of the Bureau of public Roads was here inquiring as to the progress being made toward reconstruction.

It seems therefore under the conditions outlined that the time limit is a very important consideration. I might also mention that due to the location of the plant
of the second bidder they also are in the best position to expedite this repair. I therefore recommend that you award this contract to the R. C. Structural Steel Company at their bid price of $86,932.00 and that time be made the essence of the contract; they being the lowest responsible bidder.

The tenders of Hand and Fritschen, Safford and Vermillion should be held until the successful bidder furnishes bond.

Yours very truly,
J. X. Williamson, County Engineer.

**RESOLUTION.**

WHEREAS, pursuant to a notice duly published as required by law, the property of Wyandotte County, Kansas, known as the old court house site at Seventh Street and Minnesota Ave., Kansas City, Kansas, was on January 5th, 1928, sold at public venue to Willard J. Breidenthal for One hundred Eighty Thousand Five Hundred Dollars ($180,000.00), who in compliance with the provisions of such notice of sale, deposited with the County Clerk, certified check for an amount equal to 10% of the purchase price thereof, which sale was subsequently ratified by the Board of Commissioners, and

WHEREAS, thereupon immediate steps were taken by the Board of County Commissioners preparatory to establishing a merchantable title to said property in order to complete said sale, and

WHEREAS, prior to the time of such sale and on the same day thereof certain persons claiming to be the equitable owners of said property served written notices on the Board of County Commissioners and also publicly announced that they challenged the right of Wyandotte County to sell said property, as well as the right of ownership by said County therein, and

WHEREAS, thereafter certain suits were filed by said contestants and are still pending, and undetermined, wherein they claim ownership and right of possession to said property adverse to the claim of Wyandotte County and its title thereto, which said suits in all expediency cannot be finally determined for an indefinite period, and which suits while so pending cast a cloud upon the title to said property, thus making it impossible for the county to tender to the purchaser a merchantable title thereto, and

WHEREAS, notice of such condition has been brought to the attention of the Board of County Commissioners by the purchaser, both orally and in writing, accompanied with a demand that the earnest money so deposited be returned to such purchaser,

FROM ALL OF WHICH CONDITIONS, and as a result thereof, it is the opinion of the Board of County Commissioners of Wyandotte County, that until the suits referred to and now pending have been finally determined, the county cannot furnish or tender a merchantable title to said property, and that such purchaser is equitably and legally entitled to be released of his contract of purchase and to a return of his deposit money so made.

NOW THEREFORE BE IT RESOLVED, by the Board of County Commissioners of Wyandotte County Kansas, that said purchaser be and he is hereby released from his contract of purchase, and that the deposit of earnest money so made by him be refunded; and that said sale be and the same is hereby rescinded, as upon the purchasers request.

Resolution adopted and passed all voting aye.

IN CONSIDERATION OF THE PASSAGE of the foregoing resolution and the return of earnest money deposit so made, the undersigned purchaser and undisclosed principal for whom such property was actually purchased, hereby waive any and all claims accruing or which may accrue to either of us by reason of the inability of Wyandotte County, Kansas, to furnish a merchantable title to the property involved.

Board of County Commissioners.

Gentlemen:

I have submitted the low classified bid and the low unclassified bid to the State Department and it is their suggestion that while no bid was taken on special classification before signing up contract, they would award the contract under the classified bid.

In order to arrive at a figure for this I have checked up the bids on the Goodard-Barnett road and find that their average is 71 cents. The low bidder has agreed to accept 70 cents. With this explanation I submit the following as the three low bidders on the classified bid:

<table>
<thead>
<tr>
<th>Bidder</th>
<th>Price</th>
</tr>
</thead>
<tbody>
<tr>
<td>H. C. Botsford</td>
<td>$26,428.50</td>
</tr>
<tr>
<td>R. G. Aldridge</td>
<td>$26,326.73</td>
</tr>
<tr>
<td>sand &amp; Son</td>
<td>$26,145.00</td>
</tr>
</tbody>
</table>

All of which are under the estimate. I hereby recommend that you award him this contract at his bid price at the sum of $26,428.50. The tenders of the other above mentioned bidders sh should be retained until the same equal bid for furnishing bond.
The tenders of the other bidders should be returned.

Yours Very Truly

C.K. Williamson.

Resolutions

It appearing to the Board of County Commissioners, from the evidence before us, that S A Polier of Piper Kansas was prior to 1926 and now is the owner of the northwest part of lot 4, a one acre tract in Miller's Subdivision, carried on the tax rolls as S-A 174-12.

That the taxes levied against said property for the year 1926 exclusive of interest and penalty was the sum of $85.50, and the taxes levied against the property for the year 1927 exclusive of interest and penalties is the sum of $82.53 or a total of $168.03. That during said years the said owner of said property, has repeatedly tried to pay said taxes, and has offered and tendered to the County Treasurer the amount of taxes legally due on said property for each of said years, but that he was unable to pay said taxes or have same accepted, because of the
fact stated to him at the time of making such offer, that there was no property standing in his name on the tax rolls, on which any taxes were due.

The Board further finds that the interest and penalties have accrued against said property for the taxes legally assessed against it for the year 1926, in the sum of $6.58 and for the year 1927 of $8.70 or a total of $17.28, on account of no fault of said owner. That thru his repeated efforts to pay his taxes on said property, and since the accruing of said penalties and interest it has been discovered and now appears upon the tax rolls that the property above described stands in the name of said S. A. Polfer and that he is ready and willing to pay all of said taxes, exclusive of penalties and interest and should be permitted to do so.

IT IS BY THE BOARD ORDERED, That there be cancelled from the tax rolls, the total sum of $17.28 and as an erroneous tax, and that there be accepted from such owner, the sum of $168.33, in full of the legal taxes now due on said property for the years 1926 and 1927.

Adopted and carried by unanimous vote of the Board.

There being no further business the Board adjourned.

RESOLUTION.

WHEREAS, there came on for consideration by the Board of Commissioners of Wyandotte County Kansas, respecting tax obligations of that bank for the year 1926, 1927, and 1928, as well as two suits respecting same being tried in the United States District Court for Kansas, which matters involve the right of the County to apply the general taxation rate against the property of the bank, other than its real estate, as contended for by the County, as against the rates fixed by the Statute of 1925 and its amendments, which is claimed by the bank should be applied and

WHEREAS, under such contention the bank has sued to recover taxes paid under protest by reason of the rate applied by the County, and has also filed suit and obtained a restraining order enjoining the County from assessing or collecting taxes against said bank under the rates applied by the County pending a determination of said suits, and

The same has been advised by the County Counselor that in a suit heretofore brought and pending in the United States District Court for the District of Kansas by the Central National bank of Topeka, against Paul McFar and as County Treasurer, and others involving the identical question raised by the said bank against the County in the suits herebefore referred to, a decision has been rendered by the court and upheld by the United States District Court of Appeals in the same action in favor of the contention of said bank concerning the rate to be applied for taxation purposes on its property other than real estate and that under a decision made by the public service commission of the State of Kansas, and also an opinion made an issued in Bulletin 24 by the Attorney General of the State of Kansas both of which are in agreement and in conformity with the decision of the U. S. Court (District) and the U. S. Court of Appeals bearing on that subject;

And being further advised by the County Counselor that an agreement for a settlement of the controversies involved in the suit of the People's National Bank vs. the Bd of Commissioners of Kansas has been reached on a basis of refunding to said bank the sum of $3329.67 in satisfaction of the bank's claim of $3928.69 and upon request of the County Counselor that he be permitted on behalf of the County to perform said compromise and settlement;

NOW, THEREFORE, upon motion duly made and seconded, that the Board make its order respecting said matter as follows:

1. That the suit at law of the People's National Bank of Kansas City, vs the Board of County Commissioners of the County of Wyandotte pending in the U. S. District Court of Kansas and number 3266 therein, be compromized and as filed, said bank accepting for its claim of $3928.69, the total sum of $3329.67, the defendant to pay the cost of said suit and the plaintiff to dismiss the same with prejudice. The proper officers of the County are at once to cause said suit to be dismissed without prejudice.

2. That the suit at law of the People's National Bank of Kansas City against the County of Kansas pending in the United States District Court for Kansas and number 3266 therein be dismissed the same with prejudice.

3. That the tender made by said People's National Bank to Harry B. Powers, Sheriff, and William E. Birdy County Treasurer on April 3rd, 1928 in the amount of $3928.69, as in said suit declared by those officials accepted as and for the balance in full of all taxes due or to become due from said People's National Bank for the year 1927, be rejected.

4. That said People's National Bank, after payment of taxes for the year 1928 upon its real estate, be permitted to discharge the balance of its tax obligations to Wyandotte County for the year 1928 by payment to the County Treasurer of said County, a sum equal to 50 cents for each one hundred dollar of the taxable value of its capital remaining, after subtracting the taxable value of its real estate from its total capital account.

The Board of County Commissioners.
Wyandotte County, Kansas.

Gentlemen:

There has been referred to us the question of the authority of the Board of Commissioners to pay for the services of a deputy surveyor.

This question has been somewhat difficult of determination, by reason of the various and apparent conflicting statutes enacted by the Legislature. Section 194401 of the K.S. provides that in counties of the classification numerically of Wyandotte County, the surveyor shall be elected. Section 19-1428B of the same act provides that the County Surveyor "may appoint such number of deputy surveyors under him as he may think proper." We are unable to find either in the said statutes or in the session laws of 1927, being chapter 217 that any provision has been made for the salary of a deputy surveyor.

The general rule of law governing the question under consideration is "that where deputies are employed by county officers, compensation for their can only be allowed as authorized by statute." This rule has been quite uniformly upheld by the courts of the various states. The County Surveyor in his communication to the Board indicated that his duties were governed by the provisions of Sec. 29-1290 R. S. and that among such duties he is required to keep his office open six days per week. This statute does not apply to Wyandotte County but only to counties of under 90,000 population. The duty of the Surveyor of Wyandotte with reference to keeping his office open is under Sec 19-1429 R. S., which provides that his office shall be open for the convenience of the public one day per week. Chapter 217, Laws 1927 relating to fees and salaries for surveyor provides as follows: "That all officers and persons herein mentioned in all counties having population over 125,000, shall receive the compensation allowed and no other fees mileage, salary or thing of value of any kind or nature unless specifically allowed them by the terms of this act. Sec 10 provides "the county surveyor shall receive a salary to be fixed by the Board of commissioners in a sum not to exceed 1800.00 per year. In view of the foregoing it is our opinion that the county is not legally liable for the salary of deputy.

Motion by Esopenlaub, seconded by Werner, that the Board of County Commissioners cause a survey to be made for the purpose of ascertaining the facts relative to the duties performed by the Highway Deputy Sheriffs during the last term of the present sheriff, expiring January 14th 1929, for the purpose of determining during the new term of office just beginning the number of such highway Deputy Sheriffs, if any, that are needed in Wyandotte County; and having determined what duties have been so performed, to thus determine what fund should bear the expense of said salaries, if any, and to that end that the Board of County Commissioners request the County Clerk to transmit the following letter to the Sheriff of Wyandotte County, Kansas, respectfully requesting him at his earliest convenience to furnish a written report detailing the duties performed by such highway deputy sheriffs during the term ending January 14th, 1929.

To Harry B. Powers, Sheriff of Wyandotte County, Kansas.

As you know, the Board of County Commissioners at the beginning of the new term January 14th, 1929, announced a program of economy, and in keeping with said program are surveying the various expenditures in this County.

Section 19-807 Revised Statutes of Kansas 1923, reads as follows:

"19-807. Their Salary. That the salary of such deputy Sheriffs shall be paid from the County Road Fund or from the General Revenue Fund of the County.(L.1923
;Ch.116, 2; March 28.)"

This section just quoted immediately follows Section 19-806 and refers to the Highway Deputies.

Will you kindly, therefore, submit at your earliest convenience a written report showing the detailed duties performed by the Highway Deputy Sheriffs during your term ending January 14th, 1929, for the purpose of enabling this Board to determine what fund should properly bear the expense of the salaries of such highway deputy sheriffs, if any, and for the purpose of forming a judgement as to what number, if any, of such highway deputy sheriffs might be necessary during your new term of office beginning January 14th, 1929.

Signed: Bd of County Commissioners.

Motion carried; all voting aye.

Motion by Clarke, seconded by Esopenlaub, that the County Clerk be instructed to transmit the following communication to the County Treasurer:

Wm S Bird, County Treasurer.
On page 276, Chapter 217, Section 2, 1927 Session Laws of Kansas reads as follows:

Sec. 2. The County Treasurer shall receive a salary of $3,250 per annum; Deputy $200.00 per annum; and for additional clerks, to be appointed by him with the approval of the Board of County Commissioners, the Board of County Commissioners may authorize an expenditure of not exceeding $12,000.00 per annum.

This section was carefully drawn by your predecessor in office after careful consideration of the needs of the Office of Treasurer of Wyandotte County.

Your expenses for the fiscal year of 1928 exceeded this amount approximately $4,000, which was allowed by the Board of County Commissioners, and we think this amount of extra expenditure was without reason.

We feel that this $12,000 per annum should not be exceeded.

Now if this amount is insufficient for the operation of your office, the legislature is in session and relief should be applied for from that body.

Trust me you will receive this letter in the spirit it is written and co-operate fully with the Board of County Commissioners in the full compliance of this act above referred to, we may remain

Yours respectfully,
Board of County Commissioners.

Motion carried all voting aye.

Gentlemen:

According to the recent request of the Attorney-General of Kansas, it will be necessary for each and every County Attorney of Counties within the State of Kansas to furnish the Attorney-General's office a complete record of all cases brought within their respective counties for violation of the prohibitory laws within the past ten years.

Honorable Board of County Commissioners.

Gentlemen:

In making up the 1927 tax sale book of delinquent taxes and the claim to the State for double and erroneous assessments and uncollected Personal Property Taxes, we find the County Treasurer's collections as posted on the tax rolls revealed eighty-four (84) erroneous collections not yet corrected, of which, forty-eight (48) were overpaid and thirty-six (36) were short collections.

In order to ascertain if these erroneous collections were actually made or if the treasurers erred in posting them, we called notices to the taxpayers at the addresses given on the tax rolls asking them to bring their 1927 tax receipts in for verification. Thirty-five of these parties have responded to the requests are aware of the errors in collections and await the corrections.

I personally have checked these collections thoroughly, and recommend to your Honor that an order be passed directing us to charge these short collections on the 1928 tax rolls without penalty and interest and to issue refunding certificates on the overpayments to these parties as follows:

O. Anderson 509 N 9th St. $2.00 overpayment on B50 Pt lot 17-8 Bl 1 Bl 171 Northrup Add.

J. Gillie Davis,
County Assessor.

Dear Sir:

This acknowledges receipt of your communication of the 26th inst. with reference to the assessment of a vacant lot whereon it is now discovered improvements were located. You state a question has arisen as to whether you may place an assessment on the property for the years in which no return was made.

We direct your attention to the provisions of R. S. 79-417. This section provides that it shall be the duty of the County Clerks, where lands for any reason have not been listed for taxation or have escaped taxation for any former years or years, to place the same on the assessment and tax rolls and charge up or carry out taxes against said lands equal to and in accordance with the tax levies that would have been charged had said land not been omitted. This section supersedes with the proviso that no land shall be assessed where the same has changed ownership other than by will, inheritance or gift.

Although the foregoing section refers to "land" nevertheless this is broad enough to include improvements thereon. Under R. S. 79-102 in defining land, the statute provides that it shall include not only the land itself but all buildings fixture, improvements, mines, minerals, quarries, mineral springs and wells, rights and privileges appertaining thereto. You were perfectly correct in assessing the improvements on the property for the years 1925 to 1928 inclusive. In fact, under the law, you could have gone back two more years, since you state that the improvements were constructed in 1924.

Very Truly Yours,

State Tax Commission,
C. E. Randall,
Attorney.

The Board of County Commissioners of Wyandotte County, Kansas. Gentlemen:

With reference to the above entitled cause, will say that this is a case arising out of a difference of opinion between the Insurance Company and the assessor with reference to the valuation placed upon the property of the Insurance Company - the assessor contending that the assessment should be on the valuation of $270,310, arrived at in this manner: By taking the capitalization of the Company, to-wit, $206,100, and deducting the real estate in Bourbon and Leavenworth Counties amounting to $28,790. Leaving the valuation at $270,310.

The Company, on the other hand, contends as follows: That in addition to its capitalization of $206,100, it has a surplus of $105,776.27, or a total valuation of $410,979.27 from and which it claims it is entitled to deductions, as follows: $267,776.27 invested in bonds of municipal corporations in other states, upon which it has paid a tax of 10% per $100. As per the direction of the Public Service Commission of 1927, the tax being in the amount of $2,681.00 being for the term of the bonds. That in addition thereto, it is entitled to the deduction of $160,410. in mortgages upon which its registration fees have been paid. Or a total deduction by reason of its investment of capital stock in municipal bonds of other states, and in investments in mortgages upon which the registration fees have been paid, in the sum of $394,486.

The company further contends that the only valuations upon which it could be taxed are office furniture, supplies and fixtures, in the amount of $1,032, and $825.01 in the bank, which according to my figures would amount to $2,485.01. However in the opinion of the plaintiff, they allege that the proper valuation upon which taxes should be paid is $82,034.88.

In the light of the decisions of the Supreme Court of Kansas in the following cases, to-wit: 1. The Farmers and Bankers Life Insurance Co. vs Edward Anderson, as County Treasurer of Sedgwick County, 117 Kan. 481, decided in 1921. 2. The Davis Welcome Mortgage Co. vs S. H. Haynes, as County Assessor of Shawnee County, et al. 119 Kan. 1. Decided July 6th, 1926. 3. The case of the State of Kansas vs W. E. Haynes, as County Assessor of Shawnee County Kansas, 128 Kan. appearing in advance sheets volume 3. Declined June 6th, 1927.

It is our opinion that there is a likelihood of the Commonwealth Fire & Marine Insurance Company prevailing in the above entitled cause.

However, we believe that we can compromise said cause, and that the Company will pay for the year 1928 upon the assessed valuation of $40,000; it is for the reasons herein stated recommend that your Honorable Board cause said case to be so compromised.

This case is set for trial on Wednesday July 10, 1928.

Louis E. Gates, County Counselor.
Blake A. Williamson, Assistant.

Motion by Rapsenlahb, seconded by Werner, that the advice and recommendation of the County Counselor and his assistant with reference to the assessment of the Commonwealth Fire & Marine Insurance Company be heeded, and that said counselors be instructed to compromise this suit for the assessed valuation of $40,000. For 1928.

Motion by Clarke, seconded by Werner, that the following resolution and agreement in relation
to maintenance and repairs of roads in Wyandotte County be adopted:
RESOLUTION.

WHEREAS, the Board of County Commissioners and the official boards of each of the Townships in Wyandotte County, Kansas have, had under consideration and have reached an agreement with respect to the maintenance and repair of benefit district roads for the ensuing year and up to October 1st, 1929, which agreement is in words and figures as follows:

: ENROLLING AGREEMENT :.

WHEREAS, the Legislature of Kansas on February 26th, 1929 enacted Chapter 326 Session Laws of 1929 relating to roads and highways, and altering and changing the distribution of funds by the state to counties, cities and townships, and therein providing that the amount to be distributed to Wyandotte County shall be divided between the County and the respective townships and further providing:

"That not less than fifty percent of said sum shall be used on township roads and bridges, and shall be divided among the various townships in each county in proportion that the mileage of township roads in the various townships bears to the total mileage of township roads in the County,

and further providing Wyandotte County of the motor vehicle tax heretofore going to the county for the maintenance and upkeep of county roads; and,

WHEREAS, under prior law it is provided that the County shall improve and maintain all county roads, and that the township highway commissioners shall improve and maintain all township roads. And in section 6 of Chapter 326 of the laws of 1929 it is further provided:

"That the highways heretofore designated as State highways shall be a part of the State Highway System and all other highways shall be either County Roads or Township Roads as provided for elsewhere in Kansas Statutes."

and in section 6 of chapter 326 of the laws of 1929 it is provided:

"Highways designated under this act shall be State highways and all other highways shall be either county roads or township roads as provided for elsewhere in Kansas Statutes; and

WHEREAS, in this county there is an extensive mileage of roads constructed under chapter 326 of the laws of 1929 and amendments there to known and designated as "Benefit District Roads" and are not classified as either county roads or township roads; and,

WHEREAS, there is confusion and doubt as to whether the county or the township should maintain and repair such Benefit District Roads, notwithstanding the provisions of Chapter 326 of the laws of 1929, which reads:

"That roads improved under the provisions of this act (Benefit District Roads) shall thereafter be maintained and kept in repair by the County in which said improved roads are located in the same manner and method as required for Federal Aid Roads as indicates in Section 3 of Chapter 324 of the session laws of 1929.

And by reason of the further fact that said section 6 has been repealed; and furthermore it is claimed that said section 3 even if it had not been repealed only obligates the county to the

seeking of needed repairs and the preservations of a reasonably smooth surface

considering the type of road, but not extraordinary repairs,

and therefore that the county should maintain only the central or paved portions of these benefit district roads, and that the township should maintain the shoulders, ditches, the curbing, wheel tracks and all other repairs; and,

WHEREAS, there is not sufficient time to secure judicial construction and interpretation of the highway laws prior to making levies and arrangements for the maintenance of these roads for the ensuing year and up to October 1st, 1929.

WHEREAS, the following agreement is mutually entered into that the Board of County Commissioners is to repair and maintain the surface of all benefit district roads, and the various townships agree to maintain all other repairs in their respective townships as follows:

State of Kansas.
Office of Attorney General.

August 31st, 1920.

Hon. L. C. Gage,
County Attorney,
Kansas City, Kansas.

Dear Judge Gage:

I recently received an inquiry from the Chamber of Commerce of Kansas City, Kansas, with reference to the authority of the County Commissioners to enter into a certain contract with the Citizens Military Council of Wyandotte County, with reference to the agreement said to have been entered into by the County Commissioners to pay $10,000.00 to the Citizens Military Council for the maintenance of an armory for fifteen years for the Kansas National Guard stationed in Kansas City, Kansas.

I have considered the question with which you are no doubt familiar, and I have discussed with you several times, and the following is my opinion as to whether or not the County Commissioners in this county may make a fifteen year contract under Sections 46-308 and 46-301 A.S.

I see no reason why they should not make such a contract. As a general rule, a political subdivision or a municipal corporation functions in two different ways. One of its functions is spoken of as being governmental and the other as being proprietary and incorporeal. As its proprietary functions are concerned, it is ordinarily the rule that the municipal corporation or political subdivision may bind itself for the future, only the subject of the contract is against public policy.

In this State we have three cases (Steele v. Co. Commissioners, 49 Kan. 359; Coffey Co. v. Sauder, 65 Kan. 456, and Bade v. Pershing, 64 Kan. 463) holding that a Board of County Commissioners cannot bind its successors in designating a depository for funds of the county or designating a public printer. However, a careful analysis of these cases shows that in the bank depository case the court goes upon the theory that there never was any authority to make a contract for the sum of the office of the office of the Board of County Commissioners that said the contract. In other words, the court held that there was no authority to tie up the public funds for over a limited length of time, yet alone a term beyond their term of office. As for the public printer case no concurrence, the court in those cases went upon the theory that the action of the Board of County Commissioners was an interferences with its express statutory duty laid upon such succeeding Board of County Commissioners. It became the express statutory duty to select a public printer.

Neither one of these two conditions applies to the question of the power of the Board of County Commissioners of Wyandotte County to enter into a contract for fifteen years under Sections 46-308 and 46-301. For the first place there can be no question that the Board of County Commissioners has the power under that statute to give the money for the maintenance of the local board organizations within the boundaries of Wyandotte County during their term of office, and since they have the power to give the money in the statute may be construed as expressly authorizes a contract to give the money. In the next place, there is no duty laid upon each new board of County Commissioners in
regard to the matter, with which this contract could interfere. The contract is clearly not against public policy, because the legislature has said that the public policy is in favor of donating to the national guard organizations.

The question then arises as to whether or not such a contract would be an interference with the governmental powers. In view of the Columbus Water Works case, 48 Kan. 567, and the State vs. Water Co., 61 Kan. 567 at 581, and the Cherryvale Water Works case, 61 Kan. 219 at 229, I do not believe that it would so be considered by our Court. In the Columbus Water Works case, the Court held that the Board of County Commissioners had power to bind their successors by making a long time contract for the supply of water to the city, although there was no express statutory authority. There was authority to make a contract, but no express authority to contract for longer than their term of office, but the court held that the contract was not void and compelled the County Commissioners to levy a tax to pay the money due under the contract. In the Cherryvale case the court held that the action of the County in leasing water hydrants for a long term contract was an exercise of its proprietary powers rather than of its governmental powers, and the court said:

"In the making of such contract the city exercised quasi-private power and was governed by the rules applicable to an individual or a private corporation. " At page 583, citing the case in 61 Kan. 587, 64 Kan. 638.

The Cherryvale case was also cited in Cooper vs. Light Company, 64 Kan. 591. This was an action by the Light Company to recover for services furnished under an ordinance authorizing the Company to operate in the city. In this case the city was trying to evade the contract by making a new franchise every two years in the execution of the contract, but the Court held that it could not be made to do so, and that:

"This rule of ordinary morals applies as strongly to municipalities as to individuals." At page 593.

The last case is municipal Water Company vs. Lyndon, 189 Kan. 50, in No. 1 of the advance sheets, in which the city of Lyndon could not repudiate a contract to take and pay for electric current. The contract had not been published as required by law.

The Court said:

"Lyndon is also estopped, even if it be conceded that it lacked power to contract. The contract on Lyndon's side was not illegal or immoral." At page 52.

The case in the proposed contract is really helping to lease an area for a period of fifteen years for the benefit of National Guard organizations within its limits, and it is my opinion that the Supreme Court would consider that this is the legislative act of the Board of County Commissioners in the same way that the lease for the water hydrants was in the Cherryvale case. In answer to your question, therefore, it is my opinion that there is nothing in the Constitution or statutes of the State of Kansas which invalidates such a proposed contract, and in my judgment a proposed contract is within the legal powers of the Board of County Commissioners and they are authorized to enter into such a contract and to bind their successors by so doing.

"In the event that it should be wrong, and that some question should arise about it in the future which the Supreme Court should decide contrary to my opinion, I quite agree with you that there could be no personal liability upon the County Commissioners for acting on my opinion and in my opinion, without it unquestionably have the right to be joined by the opinion of the Attorney-General until the Supreme Court decides to the contrary. As Judge Dillon, the great authority upon municipal corporations says:

"Municipal courts have refused to hold the officers of a municipality personally liable for contracts with cities in the absence of actual fraud or duress." Vol. I, Page 270, Sec. 443 (5th Ed.).

It is also my opinion that the County under the contract may be used to help pay the construction cost of the Armory building and to relieve the principal and interest of the bonds issued upon it, in the same way as the rent from the State under a contract to the same Board. The State vs. Lopey, 33 Kan. 177, held that a city might purchase a system of water works subject to an incumbrance not payable in more than twenty years and which was paid for by issuing bonds subject to the incumbrance, although there was no express statutory authority and although the court stated that the city could not have mortgaged the property without such express statutory authority. I have examined the contract and proceedings submitted by Messrs. Lee and Oman and approve of them.

"Very truly yours,
Signed: William A. Smith
Attorney-General.

F.P.

Upon reading this opinion I notice that I say at the bottom of page 8 that the court in the Columbus Water vs. Case held that the Board of County Commissioners had power to bind their successors by making a long time contract in the Cherryvale case and that the governing body of the municipal corporation had such power, and my opinion should so read.

AGREEMENT.

THIS AGREEMENT made the 12th day of November in the year Nineteen Hundred and Twenty-nine (1929) by and between WYANDOTTE COUNTY, Kansas, by and through its BOARD OF COUNTY COMMISSIONERS, hereinafter called the Owner, and Night and Night, Architects, hereinafter called the Architects.

WITNESSETH that whereas the Owner intends to equip and furnish the building, known as the Wyandotte County Court House, as a combined court house and jail, in accordance with the Resolution of the Board of County Commissioners of Wyandotte County, Kansas, adopted the 28th day of Oct., 1929.

NOW THEREFORE, the Owner and the Architects, for the considerations hereinafter named, agree as follows:

ARTICLE 1.

1. The Architects agree to perform, for the above named work, professional services as follows:
   a. The Architects are to prepare preliminary plans, general drawings, details and specifications for the equipping and furnishing of said court house and jail building.
   b. The Architects are to supervise the execution of the work.
   c. The Architects are to prepare or advise as to all forms connected with the making of proposals and contracts, if so directed, to issue all certificates of payment and generally to discharge the usual architectural duties connected with the work.

ARTICLE 2.

2. The Owner agrees to pay the Architects for their services a sum equal to six percent (6%) of the total cost of the work, which said six percent (6%) shall be payable as follows:
   a. Two per cent (2%) upon completion of preliminary studies; two and one-half per cent (2 1/2%) additional when the general drawings and specifications are completed; one and one-half per cent (1 1/2%) additional from time to time in proportion to the progress of the work, based upon the certificates issued, or payments made, to Contractors.

   The words "the total cost of the work" as used in Article 2 are to be interpreted as the cost of all materials and labor entering into the execution of the work.

   It is agreed that until the definite cost of the work is known, the fees to be paid to the Architects as called for in Article 2, shall be based upon an approximate estimated cost of the work, and the payments received by the Architects from the Owner during such time shall be considered as installments of the entire fee which shall be based on the total cost of the work, as outlined herein, when completed.

ARTICLE 3.

3. The Owner is to reimburse the Architects the costs of transportation and living incurred by them while traveling in discharge of duties connected with the work.

ARTICLE 4.

4. It is agreed that in case the work of any part of it be discontinued or abandoned before completion, the Architects shall be paid for their services as follows:
   a. For preliminary studies, two (2%) per cent of the total approximate estimated cost of the work; for preliminary studies, general drawings and specifications, four and one-half (4 1/2%) per cent of the approximate estimated cost of the work; for superintendence, one and one-half (1 1/2%) per cent of the cost of so much of the work as is completed at the time of such abandonment, in addition to the amount to be paid for preliminary studies, general drawings and specifications as above stated.
   b. No deductions shall be made from the Architects' fee on account of penalty, liquidated damages, or other sums withheld from payment to contractors.

ARTICLE 5.

5. The Owner shall give the Architects all necessary information as to the requirements for the building. The Owner shall give thorough consideration to all sketches, drawings, specifications, proposals, contracts and other documents laid before it by the Architects, and, whenever prompt action is necessary, it shall inform the Architects of its decision in such reasonable time as not to delay the work of the Architects nor to prevent them from giving drawings or instructions to contractors in due season.
ARTICLE 6.

All questions in dispute under this Agreement shall be submitted to arbitration at the choice of either party. The parties may agree upon one arbitrator; otherwise there shall be three, one named in writing by each party, and the third chosen by the presiding officer of the local Bar Association. Should the party demanding arbitration fail to name an arbitrator within ten days of his demand, his right to arbitration shall lapse. Should the other party fail to choose an arbitrator within the said ten days, then such presiding officer shall appoint such arbitrator. Should either party refuse or neglect to supply the arbitrators with any papers of information demanded in writing, the arbitrators are empowered by both parties to proceed "ex parte." If there be one arbitrator his decision shall be binding; if three, the decision of any two shall be binding and such decision shall be a condition precedent to any right of legal action. The arbitrators shall fix their own compensation, unless otherwise provided by agreement, and shall assess the costs and charges of the arbitration upon the parties or both parties. The award of the arbitrators shall be final and binding. The general procedure shall conform to the laws of the State of Kansas and nothing herein shall be construed as intended to set aside the jurisdiction of the Court.

ARTICLE 7.

The Owner and the Architects for themselves, their successors, executors, administrators and assigns, hereby agree to the full performance of the covenants herein contained.

IN WITNESS WHEREOF they have hereunto set their hands and seals, the day and year first above written.

We grieve to learn of the death on the 29th instant of Frank B. Hutchings, Judge of the 2nd Division of the District Court of this County, as in his demise Wyandotte County and the State of Kansas has suffered an irreplaceable loss.

We miss him as a friend and neighbor, while the people of this County deeply feel that they are now deprived of the services of a great Judge, one who was just and honorable in all his judicial acts.

We, who knew him well, can testify to his fine character and kindly disposition and can point to his record as that of an upright and painstaking official.

We extend our warmest sympathy to his immediate family and share in the grief that has taken possession of his home.

TO THE BOARD OF COUNTY COMMISSIONERS OF WYANDOTTE COUNTY KANSAS.

APPLICATION OF GREAT WESTERN ELEVATOR FOR CORRECTION OF THE VALUATION OF ITS PERSONAL PROPERTY FOR 1929.

Applicant: The Great Western Elevator Company, a corporation, organized and existing under and by virtue of the laws of the State of Missouri and operating in the State of Kansas under and by virtue of the laws of the State of Kansas, respectfully submits to the Board of County Commissioners of Wyandotte County, Kansas:

That the valuation placed upon its personal property in the State of Kansas for the year 1929 by the assessor was erroneous, unjust and based in part upon property which was not subject to taxation by the State of Kansas, for the following reasons:

1 Your applicant shows to the Board of County Commissioners of Wyandotte County, Kansas that it delivered to the Assessor of Wyandotte County Kansas, in the manner provided by law its schedule of returns and personal property in the State of Kansas, according to which schedule the taxable property listed for the year 1929 had a valuation of $22,170.00, the tax on which, computed in the regular tax rate, would be $900.97. This computation was based upon its regular journals and books, which showed the true amount of personal property belonging to the applicant which was in the State of Kansas.

2 Applicant further shows to the Board of County Commissioners of Wyandotte County, Kansas, that the Assessor valued applicant's property in the State of Kansas for the purposes of taxation for the year 1930 at $26,170.00, making a tax in the amount of $1462.97.

Applicant further shows to the Board of County Commissioners of Wyandotte County, Kansas, that the valuation and computation made by the assessor and the amount of tax levied in unjust and erroneous, for the reason that the valuation of property in excess of $26,170.00, which is the amount shown on applicant's return to the assessor, is based upon property which was merely held by the applicant and in which applicant had no interest other than the mere handling and storing of such property. Applicant further shows to the Board that the difference between the valuation made by the Assessor and upon which the tax was levied and the amount shown by the applicant is $14,000.00. The tax levied, based upon the erroneous valuation of $26,170.00 is $1462.97. The correct valuation of a plaintiff property, subject to the taxation
for the year 1929 was $32,170.00 as shown by the return of the applicant heretofore duly filed. The tax upon which would have been $208.97, which is the correct amount. There is therefore an excess valuation of $14,000.00 and an excess tax based upon that erroneous valuation of $594.00 and applicant respectfully requests that this Board correct the erroneous valuation of $30,170 and set it at $32,170 which is the correct valuation of applicants taxable property in the State of Kansas for the year 1929.

J. R. Brady, Attorney for applicant.

STIPULATION AND AGREEMENT

In consideration of the granting of the application of the "Great Western Elevator Company, heretofore filed, requesting a correction of the assessment and valuation for the purposes of taxation, of its personal property in the State of Kansas for 1929, it is UNconditionally by the applicant herein, the Great Western Elevator Company, that the decision of the Board of County Commissioners of Wyandotte County, Kansas, in this particular matter shall be binding upon said Board of County Commissioners only for the purposes of determining the instant controversy, and shall not be construed as establishing a precedent by which said Board shall be governed in future controversies of a similar nature, if any there be.

Honorable Board of County Commissioners,
Kansas City, Kansas.

Gentlemen

Your Advisory Committee takes this opportunity of submitting its recommendations concerning the awarding of the contract for the new county poor Farm building. These recommendations are the result of consideration of all the factors involved and we trust they will be of assistance to your honorable Board.

We do not favor the joint bar type of construction. We have consulted competent architects who advise that concrete fireproof construction should be selected if durability and stability are desired in the building. Fireproof construction will result in a material saving in insurance during the entire life of the building. In view of these considerations we do not favor any other type of construction except fireproof concrete construction.

Under option No. 3, we do not favor the use of colored cement flooring. We recommend that linoleum floors be laid now or at some future time.

Under option No. 4, we recommend the use of face brick for the rear elevation believing that this will add appreciably to the appearance of the building with very little if any, increase in cost.
Under option No. 5, (use of colonial brick for entire building) we have no preference to express. The amount involved is slight.

Under option No. 6, we have no preference to express.

Under option No. 9, we do not favor California Stucco and Finish as we regard it less sanitary than plain sand finish. So far as we can learn, it is not customary to use California Stucco sand finish in a building of this type. We recommend plain sand finish.

Under option No. 10, (Terracotta versus Cut Stone) we have no preference to express.

Under option No. 11, we recommend the use of galvanized iron because of the permanency of copper gutters and the very slight additional cost. Under option No. 12, we understand that the County can secure plate glass in the required sizes at a very good price. We recommend the use of plate glass.

Under option No. 13, we see no need for excavating all of the basement, especially in view of the very large additional cost. We recommend the work done as per the original specifications.

Respectfully submitted,
J. J. Winter, Chairman
Laurence V. Dillon
Herman Schen

Board of County Commissioners,
Wyandotte County, Kansas.

Gentlemen:

I have a copy of a letter of Mr. Benjamin Schmierle, County Auditor, dated May 3rd, 1930 addressed to K. L. Brownie, President of Peoples National Bank of Kansas City, Kansas, in which letter is set out that the assessed valuation of Wyandotte County for the year 1929 was $293,000,000.00 in round numbers, and that the levy for the Poor Fund was $.85 on the $100.00 valuation, which would raise the sum of $26,500.00 if all were collected, and in addition to that there would be proceeds from the sales from the farms which would bring an additional revenue in the sum of approximately $1000.00 making a total approximate revenue to be used for the fiscal year October 1st, 1929 to October 1, 1930 of $36,500.00.

I also note from Mr. Schmierle’s letter that the following bills were allowed and warrants drawn against the Poor Fund:

<table>
<thead>
<tr>
<th>Month</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>October 1929</td>
<td>$8,460.14</td>
</tr>
<tr>
<td>November</td>
<td>$6,717.04</td>
</tr>
<tr>
<td>December</td>
<td>$10,657.77</td>
</tr>
<tr>
<td>January 1930</td>
<td>$10,746.30</td>
</tr>
<tr>
<td>February</td>
<td>$1,656.71</td>
</tr>
<tr>
<td>March</td>
<td>$7,349.72</td>
</tr>
</tbody>
</table>

Total $52,550.77

I also note from Mr. Schmierle’s letter that there should be certain deductions from the total of $52,550.77 of warrants drawn as follows:

Bills contracted in September 1929: $8,460.14

Hospital bills in month of March 1930 allowed but warrants not delivered: 1,677.00

Allowances to organization in March 1930 but Warrants not delivered: 678.00

Allowance for bills contracted and due in 1928 revenue, but allowed in the year 1930: 311.00

Total Deductions $11,126.14

Therefore, after deducting the amounts properly chargeable to the 1929 revenue of the amount of $47,428.61, there remains a balance due properly to be spent from and out of the 1929 revenue, of the sum of $46,067.39.

Based upon these figures and the amount of $46,067.39 left for the 1929 revenue, it is proposed to levy the amount of $46,067.39 up to October 1, 1930, in the event that the taxes collected prior to October 1, 1930 are not sufficient to pay said warrants so drawn.

Sec. 19-241 of the K.S. of Kansas 1923, provides among other things:

‘and shall be unlawful for any Board of County Commissioners or County Clerk to issue county warrants or orders in any year to a greater amount than the amount of the county tax levied in the same year to defray county charges and expenses less the amount levied for delinquencies.’

The Supreme Court of Kansas interpreting this section, in the case of the Leavenworth National Bank et al vs. H. V. Reilly, as County Trustee, et al. 97 Kansas 817, the syllabus is as follows:

County Warrants — limitation of issue. The issue of warrants in any one fiscal year to defray the general expenses of Leavenworth County is limited to the maximum revenues which the levy for that fiscal year will produce, and is determinable by a calculation applying the levy to the assessed valuation of the county.
Voids County Warrants—Issued for valid Indebtedness—May be paid how. When
county warrants have been issued in excess of the general maximum revenue fund for the current
fiscal year, but for which the county net value received, they can be paid in two ways: (1)
by the slow collection of rents, taxes, and miscellaneous items which may accrue to the
general revenue fund; or (2) by application to the legislature and obtaining its sanction
authorizing their payment out of later general revenues of the County.

Voids, Void County Warrants—Buyers Subrogated to Rights of Original Creditors.
Where county warrants are void only because issued in excess of the maximum revenues derivable
from the general levy for the current fiscal year, the holders of such warrants are subrogated
to the rights of the original creditors whose claims against the County were the basis of
such void warrants, and if the claims were lawful, the county is liable to the subrogated
holders of such claims and provisions may be made to meet their payment in future annual
levies, but no such future annual levy can exceed the maximum allowed by statute."

It will thus be seen that the case just cited dealt with a situation wherein Leaven-
worth County Fund in March 1915 it was without funds to pay its current obligations matured
and maturing during the year 1915, except by issuing County Warrants; that such county warrants,
in the amount of $24,793.95 were issued between April 1, 1915 and November 1, 1915 and presented
to the County Treasurer and registered, numbered and stamped "not paid for and of Funds."

It was therefore admitted that Leavenworth County could lawfully raise by taxation
for current expenses during the year 1915, the sum of $26,000.

On November 1, 1915 the new tax money having come in, there were ample funds on hand
to pay these warrants in the amount of $24,793.95—but when they were presented to the County
Treasurer for payment he refused on the ground that the funds raised by the levy in August
1915 and collected in November 1915, could not be used to pay off the warrants issued between
March 1915 and November 1915 in the amount of $24,793.95, because they were properly payable
out of the tax revenues received for the year 1914, in November 1914 and in June 1915.

The Supreme Court upheld the contention of the County Treasurer and denied the writ
of mandamus to compel the Treasurer to pay them, but in the opinion on page 827 said;
"We have treated the warrants as void for the reasons given. In one sense they are not
void. Without the aid of the doctrine of subrogation and the presentation of new vouchers and
the issue of new warrants, they could be lawfully paid out of any funds which may yet be collected
from the levy of 1914 and preceding years. But that would be slow and probably altogether
insufficient. It is also true that the Legislature might authorize the payment by the County."

In the present case of Wyandotte County, as I interpret the figures quoted herein
from Mr. Schmitte's letter of May 3rd, 1930, warrants have been issued for indebtedness prior
to October 1, 1929, and paid out of the 1929 revenue in the amounts of $8,660.14 and $311.00 resp.
respectively, hereinafter set out.

These last mentioned amounts were not properly payable out of the 1929 revenue, yet
having deducted these, there remains to be properly paid of the 1929 tax revenue itself for
1929 warrants on the Poor Fund, the sum of $55,067.39.

Based on all the above figures, it is my opinion that the Board of County Commissioners
has the power to issue warrants drawn on the Poor Fund from now until October 1, 1930, for
the payment of obligations created during the fiscal year October 1, 1929 to October 1, 1930,
in an amount not to exceed $56,697.50.

Yours Very Truly,
Assistant : Blake A. Williamson.
Louis R. Gates.
County Counsellor.

Board of County Commissioners of
Wyandotte County, Kansas.

Gentlemen:—

With reference to your inquiry concerning Deputy Assessors Bonds, advise you as follows:

Section 79-1441, R. S. of Kansas 1923, among other things provides as follows:

"Every deputy assessor before entering up the duties of his office, shall take and subscribe an oath to well, faithfully and impartially perform such duties, and shall execute a bond to the State of Kansas, with good and sufficient sureties, to be approved by the County Clerk, in such sum as the County Commissioners shall fix, not less than $300.00 in any case; said bond to be conditioned for the faithful performance of all duties imposed by law."

It is our opinion that deputy assessors must give bond to the State of Kansas, conditioned as above set forth; that the Board of County Commissioners have the power to set the amount of same, not to exceed $300.00 in any case.

We see no necessity for Township Trustees to give an additional bond, as they are required by law to give an official bond for the faithful performance of their duties and one of their duties as prescribed by law is assessing in their respective townships.

It is our further opinion that it is not necessary that a surety bond be given but that a personal bond may be signed by good and sufficient surety, subject to the approval of the County Clerk.

We might say for the Boards information that after a search we are unable to find where any suit has been filed against either the Board of County Commissioners or the County Assessor in this county involving any liability on the part of the county for default of deputy assessors.

Respectfully submitted,

Blake A Williamson, County Councillor.

Motion by Werner, seconded by Clarke, that opinion and resolution of County Counsellor with reference to cancellation of paid warrants be received and filed and copied in full on the Journal.

Motion carried all voting aye.

Board of County Commissioners, Wyandotte County, Kansas.

Gentlemen:

In reply to your inquiry submitted to our office concerning the power of the Board of County Commissioners to cancel all warrants paid through the Treasurer's Office and maintain a proper list and docket of same, advise you as follows:

"Section 21-1906 R. S. of Kansas 1922, provides as follows: Payment and redemption of warrants. Every state and county treasurer in this state shall pay for and redeem any state or county warrant presented to him for redemption at the time of its presentation, and if so paid shall mark the same 'Paid' with red ink, on its face, and the date when paid, at the time of payment, and sign the same: Provided, there is money then in his possession sufficient to pay the same; and if there is not sufficient money in his hands to pay such warrant, he shall make a certificate of the fact upon the back if said warrant, and date and sign the same."

This defines the duty of the County Treasurer and in all cases where the warrant is paid by the Treasurer the word paid should be marked in red ink across the face of said warrant.

Section 19-320 R. S. 1923 provides as follows:

"Unclaimed Warrants. Whenever any county warrant, issued to any person, remains in the office of the County Clerk unclaimed for a period of three years from the date thereof, such warrants shall be returned by him to the Board of County Commissioners and cancelled.

This proviso of the Statute is mandatory and the Board of County Commissioners must cancel all unpaid warrants which have been drawn for a period of three years.

Section 19-226 provides as follows:

Record of orders. The Board of County Commissioners, at their July session of each year or oftener if they deem it necessary, shall carefully examine the County orders returned by the county treasurer, by comparing each order with the record in the county clerk's office. They shall cause to be entered on said record, opposite to the entry of each order issued, the date when same was cancelled. They shall also make a list of the orders so cancelled, specifying the date, amount, and the person to whom the same was payable, and enter same on the Journal of the Board.

In our opinion this statute is for the purpose of an audit by the County Board and once each year such a meeting should be held if the Commissioners deem it advisable.

Section 19-307, R. S. 1923, provides that the County Clerk shall not sign or execute any county order until ordered by the commissioners to do so.

Section 19-216 provides among other things, that the Board of County Commissioners are to perform certain duties prescribed therein and to perform such other duties as are or may be prescribed by law.

It is our opinion from an examination of these statutes that there is no mandatory provision in the statutes compelling the Board of County Commissioners to cancel warrants whose have been paid by the County Treasurer and returned to the County Clerk. It is our further opinion that it will expedite the business in the Court House and provide a better record on the outstanding warrants and those that have been paid, if the Board authorizes the County Clerk to perform this work and provide suitable docket, lists, etc., to take care of same.

We are enclosing a resolution authorizing the County Clerk to take over this duty and provide suitable docket, lists, etc., for carrying on this work.

Respectfully submitted,
Blake A. Williamson, County Counsellor.
George E. Gard, Assistant.

Board of County Commissioners.
Wyandotte County, Kansas.

Gentlemen:

With reference to the assessment of the Huron Investment Company referred to us on April 16th, advise you as follows:

We have made an investigation of the property owned by the Huron Investment Company and Frank L. Travis, the president, has exhibited to us receipts for the payment of State Taxes required on numerous bonds, amounting to $44,000.00.

He also has exhibited to us receipts from various County Treasurers of Counties in Kansas, showing the payment of $34,615.00 registration tax for mortgages held on real estate in various counties in Kansas.

A further investigation shows that this amount of $119,915.00, was taken into consideration by the Assessors in their tax statement and finding a valuation of $289,040.00, taxable assets of the Huron Investment Company.

We advise you that under the recent decisions of the Supreme Court these intangibles are not taxable, and therefore recommend that the Board of County Commissioners make an order removing from the assessment $119,915.00, that in intangibles securities consisting of mortgages, bonds on which the tax has heretofore been paid and have the County Clerk change the records in his office and in the Treasurer's Office and accept payment of taxes on an assessed valuation of $119,117.00, the difference between the original assessment of $289,040.00, and the amount of $119,915.00, invested in exempt securities.

Respectfully submitted,
Blake A. Williamson, County Counselor.
Geo. E. Gard, Assistant.

Board of County Commissioners.
Wyandotte County, Kansas.

Gentlemen:

On the contract awarded to me for the re-flooring of the East Kansas Ave bridge or 23rd St viaduct, we have decided it will speed up the work to poor the south half of the flooring first.

It is my opinion that no damage will be done to the north half if I allowed same to be opened to loaded truck travel only.

If the Board of County Commissioners will allow me to open the north half of the 23rd Street Viaduct to loaded truck travel, I agree that I will place a watchman at each end of the bridge to regulate travel across said viaduct or bridge and I further agree that I will be responsible and indemnify the County against any loss by reason of personal injury or property damage sustained as a result of any truck breaking thru said viaduct.

I personally feel that this will not interfere nor delay the construction of said bridge and in the event the Board of County Commissioners grant my request to allow me to open this north half for loaded truck travel, I will stand responsible and agree to indemnify the county against any accident, collision, breaking thru said bridge, damages or personal injuries which may result from opening said viaduct or bridge.

Respectfully,

E. W. Rand.

Board of County Commissioners, Kansas City, Kansas.

Gentlemen:

It is my duty to inform you that at a special meeting of this Association held this date, it was unanimously agreed by the member banks to grant your request for assistance in very materially reducing you proposed levy for taxation purposes this coming year.

To accomplish this saving of approximately ten and one-half cents in the tax rate the member banks will abide by the tentative agreement reached during recent conversations between yourselves and a committee from this association, which agreement, in brief, provides for member banks of this association carrying for a fixed period beyond their maturity Wyandotte County Bonds in an amount not to exceed $150,000.00.

Further details in connection with this financing will be handled by the same committee of this association as has carried the negotiations with your Board to this accord.

The member banks have instructed me to make known to you their pleasure in thus being able to render you, and through you the tax payers of Wyandotte County this service, and it is their hope that you will be able to affect further economies in your budget to the end that very little, if any, increase in the coming years tax rate will be necessary.

Yours very truly,

C. L. Wilson, Manager.

Blake A. Williamson, County Counsellor, Kansas City, Kansas.

Dear Sir:

Pursuant to our conversation of recent date I have given further consideration to my opinion dated August 17th with reference to the apportionment of costs for the building of a benefit district road which lies entirely on the County Line between Johnson and Wyandotte County.

In that opinion I stated that the apportionment of costs should be made under the provisions of Sec. 68-716. After reconsidering the matter, it is my opinion that since the road in question is entirely on the County Line and no part of it extends into either county that the apportionment provisions of Sec. 68-716 do not apply, and the apportionment is made in the proportion provided by the general provisions of the benefit district statute.

Very truly yours,

Roland Boynton, Attorney-General.

OPINION OF COUNTY COUNSELLOR.

October 26th, 1931.

Board of County Commissioners,
Wyandotte County, Kansas.

Gentlemen:

With reference to the question submitted to me as to the Power of the Board of County Commissioners to compromise taxes with the owner of the property where the property has already been bid in by the county, advise you as follows:

Section 79-2411, Revised Statutes of Kansas, provides as follows:

"79-2411. Redemption or sale of lands purchased by the county. Whenever any lands or town lots that may have been or shall hereafter be sold for any taxes due thereon have been or shall hereafter be bought in by any county for such taxes are hereafter shall be unremoved for three years from date of sale, and no person shall offer to purchase the same for taxes, penalties and costs due thereon, the county commissioners of the county where such lands or town lots are located may permit the owner, his agents or attorney, to redeem the same, or may authorize the County Treas-
urer to execute and the county clerk to assign the tax sale certificate for such lands or town lots for any sum less than the legal tax and interest thereon, as shall be in their judgment for the best interests of the county, which assignment shall have the same force and effect as if the full amount of taxes, interest and penalties had been paid therefor:
Provided, however, that no deed shall be issued until six months after such assignment has been made.

I understand that the Board of County Commissioners are entitled to a major portion of the taxes to be derived from any compromise made on the property in question and that they have recommended such a compromise be made.

In the City of Atchison vs. L. Friend, 78 Kansas 30, the court holds, that the Board of County Commissioners are not bound to heed the advice or request of the City Officials, but may do so as the entire power to compromise and order a redemption for such amount as the Board of County Commissioners deem best is a matter which is vested solely with the Board of County Commissioners.

In Gibson vs. Cokrum, 81 Kansas 772. The Court in the syllabus holds, "In compromising the taxes the County Board may include in the compromise all delinquent taxes which are a lien on the premises at the time the compromise is ordered, or it may compromise the delinquent taxes for for certain years on condition that the purchaser pay the delinquent taxes in full for the other years in question." This case seems to be the general rule in Kansas and I find no authority for deviating from the above.

Further understand that an attempted compromise has been made by the County Attorney and I would further advise that before the Board makes any order that a written opinion should be obtained from the County Attorney approving and confirming said order of compromise for the reason that said case is now in the hands of the County Attorney and in a tax sale, has been bid in by the county and the County Attorney by statute has exclusive charge of all tax foreclosure matters on real estate and is entitled to a fee on the sale or price.

When the above suggestions have been performed, it is my opinion that the Board of County Commissioners have the authority to compromise taxes where the property has been bought in by the county and is now or shall be unremedied for a period of three years. Signed:

January 31st, 1933.

Samuel Clarke,
Chairman Board of County Commissioners,
Wyandotte County,
Kansas City, Kansas.

Honorable Chairman:

In behalf of the Wyandotte County unemployed Ex-service Men’s Organization and the committee that was appointed by myself as President, we wish to extend our sincere thanks for the prompt and speedy manner in which your honorable body has handled the relief proposition when same was called to your attention.

These men are all honorably discharged soldiers, sailors or marines and as such have been fully trained in the manuals of fighting as well as earning their own livelihood after their discharge became effective, but under the present existing circumstances have been unable to procure work to earn a livelihood for themselves and families, and when such was not available had to resort to other means by which their dependents could be partly taken care of, and while the relief they have been receiving from the County has been small yet we realize it was the best that could be obtained at that time and along these lines we wish to express our thanks for what has been done for us in the past and ask a continuance of such favors until such time as they will be in a position to take care of themselves, we shall, and will, always remember our friends that stood by us in our hour of need, and only await the opportunity when we will only be too glad to return said favors to yourself as Chairman of the Board and Dave Rappenlaub and Frank Werner. We also wish to extend our thanks to your poor commissioner Ed Smith, who has been unbiased and unprejudiced in extending this relief to all of our un-employed ex-service men and their families.

Again wishing to thank you from the depths of our heart be beg to remain,

Very truly yours,

By: J. F. Grennrood, President.

Board of County Commissioners.

Gentlemen:

In regard to claims for refund of the Atchison, Topeka & Santa Fe Railroad, and other

s, which were ordered by the State Tax Commission, advise you as follows:

It is my opinion that the railroad cannot compel by mandamus the carrying out of the Tax Commission's order, and I am of the further opinion that we have a legal defense to a good portion of the refunds allowed by the Tax Commission.

I therefore recommend that this Board disallow all claims presented by the Railroads which has been ordered by the State Tax Commission.

Respectfully submitted,

Blake A. Williamson.

County Counselor.

Motion carried all voting aye.

Board of County Commissioners.
Wyandotte County, Kansas.

Gentlemen:

In the matter of the taxation of furniture and fixtures of the Commercial National Bank for the year of 1932, advise as follows:

That in the year 1931 the assessor placed the value of the furniture and fixtures of the Bank at $74,000. The Bank appeared before the Board of Equalization and asked that it be removed. The Board of Equalization disallowed the request of the Bank.

An appeal was taken to the Tax Commission who affirmed the opinion of the County Board. The Bank then brought suit in the District Court No. 41,582-A entitled Commercial National Bank v. Wyandotte County Board of Commissioners, to enjoin the collection of tax upon said furniture and fixtures.

Suit came on for hearing on the 5th day of June, 1932 before Division 4 of the District Court, and the Court found in favor of the plaintiff and permanently enjoined the Board the Treasurer County Clerk, and Sheriff from attempting to levy upon said fixtures and furniture, and held that under the law the furniture and fixtures of a National Bank are not subject to an assessment and restrained the authorities from levying on same.

I advised the County Assessor of this decision and advised him that he had no authority to assess the furniture and fixtures of a National Bank, however, in March of 1932, the County Assessor again assessed the furniture and fixtures of the Commercial National Bank at $69,000. It is my opinion that under the decisions of Judge Miller above referred to, that these taxes cannot be collected and that if a suit were brought by the bank that the taxing authorities would again be restrained from collecting said taxes. I therefore recommend that this Board order the County Clerk to correct the error of placing the furniture and fixtures upon the tax rolls of Wyandotte County and remove from the tax roll the assessment of the Commercial National Bank the item of $69,000 furniture and fixtures as unlawful and void and that said bank be permitted to pay the balance of their taxes upon the shares of stock heretofore assessed by the County Assessor.

Respectfully submitted,

Blake A. Williamson.
County Counsellor.

No further business appearing the Board adjourned.

Board of County Commissioners.
Wyandotte County, Kansas.

Gentlemen:

In regard to the claim of J. A. Tobin for balance due on contract for grading and final estimate recently filed, advise as follows:

That it is my opinion under the facts of this case where the plans are ordered changed and the contractor compelled to do the extra work by Mr. Shepherd, an assistant in the office of the County Engineer, that the County would be liable for the actual work done under the plans and contract.

I therefore recommend that this claim be allowed.

Respectfully submitted,

Blake A Williamson, County Counsellor.
